

# SIMON BLURTON

## FULL STACK SOFTWARE DEVELOPER

WhatsApp: +52 967 172 4985 | Email: Sblurton@hotmail.co.uk

Nationality: British | DOB 18/03/1982 | Languages: English (native) | Spanish

## OBJECTIVE

To obtain a role as a software developer for a company with great developers that better than me, so one day I can become a great developer like them.

## EDUCATION

1998 - 2001      Hull Hi-Tech NVQ levels 2 & 3 IT and computing

## PROJECTS

My Portfolio	My portfolio is simple but all the code is mine. I used storybook to build all the components.	<a href="#">GitHub Repo</a>	<a href="#">Live Site</a>
Big 6	A full stack PWA using NEXT.JS, with Firebase AUTH, and Firestore noSQL database. I needed a logbook for my calisthenics, so I built one for the fun of programming, and the joy of calisthenics.	<a href="#">GitHub Repo</a>	<a href="#">Live Site</a>
Vertigo Rock Climbing	A front-end app using Gatsby, great fun being creative and doing the animations. My friend in Mexico runs a rock-climbing business, and thought I could make him a website for fun. Turns out getting content from costumers is my weakness here as I can't get him to give me any content.	<a href="#">GitHub Repo</a>	<a href="#">Live Site</a>

## SKILLS

JavaScript | React | NEXT.js | Gatsby

CSS | SASS | Styled-Components | HTML

Firebase | Firestore | Auth | PWA

## INTERESTS

Rock Climbing | open source

Mountain Biking | Nature

Sea Shepherd Volunteer | Travel
